

Summer 2026 Guest information

As part of our ongoing commitment to preserve and evolve the legacy of Kulm Hotel St. Moritz, a few carefully managed improvement works will take place during the upcoming summer season.

These enhancements include a fully renovated, multi-functional ballroom and a new wine cellar and tasting room, both scheduled to open for the winter season from 6 December 2026.

We would like to inform you about the following periods:

- 12 June – 30 August: Internal works related to these projects will take place in the ballroom and basement areas. Disturbance is expected to be minimal.
- 12 June – 6 July: The main entrance will be temporarily relocated to an alternative entrance. Reception and Concierge services will operate from a temporary location, ensuring the same attentive service and assistance throughout your stay.
- From 6 July onwards: The main entrance and usual reception areas will resume normal operation. Access to certain restaurants may be slightly adjusted during this period, and our team will be pleased to guide all guests accordingly.

As part of these works, the Grand Restaurant will remain closed during summer. The Grand Restaurant experience, including breakfast and half-board dinner, will therefore be hosted in our elegant Festsaal for most of the season. During quieter periods or on selected event dates, half-board dinner may occasionally be served in the Kulm Pizzeria.

We sincerely appreciate your understanding as we continue to invest in the future of Kulm Hotel.
